

Fenugreek is an herb that has long been used in cooking and in traditional Asian medicine. Fenugreek Seeds have been found to contain protein, vitamin C, niacin, potassium, and diosgenin.* Fenugreek Seed supports women's health of all ages and may help to increase milk production in nursing women.* Fenugreek Seed may lessen the effects of hot flashes/mood fluctuations that are common symptoms of menopause.* Antioxidant and anti-inflammatory properties of Fenugreek Seed supports healthy skin, cardiovascular health and overall health and well-being.*

SUGGESTED USE: As a dietary supplement, adults take two (2) veggie capsules 2 to 3 times daily, preferably with a meal or as directed by a health care professional.

CAUTION: If you are pregnant, nursing, taking any medication or have any medical condition, consult your doctor before use. If you are nursing talk to your doctor or a certified lactation consultant to determine the best dosage levels for your specific nursing situation. Discontinue use and consult your doctor if any adverse reactions occur.
