

Keratin is an insoluble protein found in epidermal tissues such as the hair, nails, and skin where it helps to provide them with structure and to protect them against damage. While keratin levels are usually adequate in young people the body produces less and less as one ages, making keratin supplements an excellent choice for maintaining a youthful appearance for one's hair, nails, and skin.*

Suggested Use: As a supplement for hair, nail, or skin health we recommend taking 2 capsules (500mg) per day with or without food. It is not recommended to exceed 4 capsules per day.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.
