

Spermidine is a polyamine that plays a vital role in the metabolism of cells. It also is crucial for the process of cell renewal and cell production. Studies show it may help support healthy aging.

Suggested Use: As a dietary supplement take, take 1 serving per day. After 1 week of use you may increase dosage to 2 servings per day. Take with or without food.

Storage: Store in a cool, dark place. Do not freeze or expose to moisture or heat above room temperature.
