THE KING OF VITAMIN C

As a fruit native to the Amazon rainforests, the camu berry is one of the richest natural sources of vitamin C in the world. In fact, a single teaspoon of camu powder offers the vitamin C content of five whole oranges! When you have vitamin C this powerful in a raw whole food, who needs pills? With its potent amino acid profile, its phytochemicals and antioxidants, camu camu offers amazing nutrients to help block and scavenge free radicals and support a vital immune system.*

The Zint Difference: In accordance with fair trade values, our organic camu camu is sourced from wild shrubs growing in the alluvial soils alongside rivers and streams near the Peruvian Amazon. The raw fruit is slow-dried at low temperature and milled to a fine powder, preserving camu camu's nutrients in their purest form.

Usage: Our camu powder has a deep, tart flavor perfect for complementing your favorite recipes. Stir it into smoothies and juices, or sprinkle it over ice cream, yogurt, cereal and desserts for a healthy, delicious antioxidant boost.
