THE POWER OF MACA

Maca is power. Native to the Andean Region, the maca plant has been used for thousands of years as a whole-food resource for health and vitality. As one of the world's most sought-after adaptogenic superfoods, maca root bolsters the body's ability to adapt to life's physical and emotional stressors. Its powerful nutrients support hormonal and emotional balance, boost energy levels, increase stamina and support fertility and sexual function in both men and women.*

The Zint Difference: While maca in its raw form can be difficult for some to digest, our organic maca powder is gelatinized to remove the starch, concentrate the nutrients, and enhance digestibility. We take pride in sourcing our maca from family-owned farms in the Andes mountains of Peru. Our suppliers harvest and sell their produce in accordance with fair trade values.

Usage: Subtle, complex and smoky in flavor, our maca powder is the perfect addition to your favorite drinks, snacks and recipes. Stir it into coffees, teas and smoothies for added sweetness and complexity, or sprinkle it onto yogurt, ice cream or your favorite desserts.
