BCAA 2200 Benefits:

- BCAAs are especially important for bodybuilders since they comprise a large percentage of the amino acid composition of muscle.*
- BCAAs are also the only amino acids that are directly metabolized in the muscle as opposed to the liver.
- Provides dual benefits since BCAAs can be used to build protein or broken down in muscle to supply a direct source of energy.**
- BCAAs provide muscle nitrogen support for a variety of metabolic functions, which can be especially important during heavy training.*
- Enhanced with high potency Vitamin B-6, which plays an essential role in BCAA metabolism for optimal usage.*

WARNING: If you are pregnant, nursing, taking any medications, planning any medical or surgical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Not intended for use by persons under the age of 18. Keep out of reach of children. Store at room temperature. Do not use if seal under cap is broken or missing.
