

PLUSEPA®

MINAMI NUTRITION

The Minami Five - 5 Reasons Why You Should Choose Minami

- Supercritical Difference:** Minami oils utilize liquid CO₂ extraction and are exposed to 400% less heat than other leading brands with no use of harsh solvents and no saturated fat as filler.
- Super Concentration:** Minami is one of the highest concentrated Omega-3s available, which is "super convenient" because you get more Omega-3 nutrition per softgel which means fewer pills and tablespoons of oil to swallow.
- Unsurpassed Purity:** Minami oils go through rigorous in house and third party testing and have remarkably low levels of oxidation as well as undetectable levels of dioxins, pesticides and heavy metals like mercury.
- Science-Based Unique Formulations:** Minami uses the latest Omega-3 research to formulate specific ratios of EPA and DHA to support the body and its systems.¹
- Small Environmental Footprint:** Minami obtains fish from sustainably managed waters and is the only fish oil in the world to receive EMAS [Eco-Management and Audit Scheme] status—a very stringent European standard.

Pharmaceutical Grade - all manufacturing, encapsulation and laboratory testing conducted in accordance with GMP guidelines [Good Manufacturing Practices].

PLUSEPA® is a premium Omega-3 supplement utilizing supercritical CO₂ extraction technology that delivers 500mg of EPA in a convenient, once daily serving. **PLUSEPA®** offers a clean, pure oil with no fishy aftertaste.

Advanced Omega-3 research suggests a high concentration of EPA can support cognitive function, mood, immune system and cardiovascular health.¹

Cold processed. Smart choices.

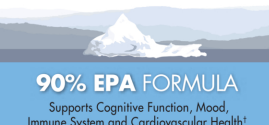

Supercritical CO₂ extraction utilizes 400% less heat than the leading brand—like typical processes can expose heat-sensitive oils to temperatures as high as 400°F. Liquid CO₂, an organic compound, takes the place of typically-used harsh chemical solvents. Minami also offers one of the highest concentrated Omega-3 fish oils on the market, which means more Omega-3 nutrition, no fillers and fewer softgels to take—now that's smart.

For every bottle sold a donation will be made to NPF, National Parkinson Foundation. www.parkinson.org

PLUSEPA®
SUPERCritical OMEGA-3 FISH OIL

Once Daily
500mg EPA in only 1 softgel

60 SOFTGELS

DIETARY SUPPLEMENT

Suggested Use: Adults take 1 softgel per day, with water. Best taken with food. Not intended for children.

Supplement Facts

Serving Size 1 Softgel
