- Promotes Macular Health
- Free Radical Protection*

60 Softgels

A Dietary Supplement

QUALITY GMP ASSURED

SUGGESTED USAGE: As a dietary supplement, take 1 softgel daily with a meal.

Lutein is an orange-red carotenoid pigment produced by plants and is present in the diet in colorful fruits and vegetables. In the body, Lutein is one of the predominant pigments concentrated in the macula, a specialized area of the eye that is responsible for central vision. In addition, it is known to be deposited in the skin. Lutein's functional role in these vulnerable tissues is to protect against sunlight-induced free radical production.* This product is naturally derived from marigold flowers, which possess a broad spectrum of carotenoids, including Zeaxanthin.
