- Low glycemic index

NET WT. 80 OZ. (5 LBS.) (2268g)

  

Sugar-free
Gluten-free
Kosher certified
Sustainably sourced

THE PERFECT SUGAR ALTERNATIVE

With xylitol, you can finally have your cake and eat it, too. As a purely natural organic sweetener, xylitol has 40% fewer calories and 75% fewer carbs than sugar, giving you all of sugar's delicious sweetness without the health hazards. Its extremely low glycemic index makes it perfect for sugar-controlled diets. And because it can't be metabolized by plaque bacteria, it actually helps prevent tooth decay.*

The Zint Difference: Nature knows best. Our wholesome, organic, non-GMO xylitol emphasizes sustainability, sourced from organic corn for the most eco-friendly sweetener available. With no preservatives or gluten, and none of the potential health risks of artificial sweeteners, our natural xylitol offers peace of mind along with your daily dose of sweetness.

Usage: Zint Xylitol looks, tastes and measures just like sugar. Whether in coffee or baking recipes, simply substitute the same amount of xylitol for sugar and see if anyone notices the difference! (If you're new to xylitol, take only a small amount per day at first and increase gradually to allow your body to adjust.)

Note to Animal Lovers: While healthy for people, xylitol can be harmful to dogs and cats. Please serve your xylitol-sweetened treats to humans only!

Storage: Store in a cool, dry place away from direct sunlight.

Allergen Information: Our xylitol is free of all common allergens, including wheat, gluten, dairy, peanut, tree nut and soy.
