

Improve Athletic Performance & Nitric Oxide Levels
Agmatine is derived from the amino acid L-Arginine. Agmatine acts as a neurotransmitter to induce the production of growth hormone, nitric oxide, creatine and waste products from the body.

Agmatine is noted for its ability to extend Nitric Oxide (NO) levels in muscles during training. Extending NO levels results in more efficient delivery of oxygen and performance sustaining nutrients to working muscles. Thus increasing endurance and reducing recovery times.

Enhance Muscular Pumps

Noted Agmatine benefits include promoting muscular pumps, nutrient transport, nutrient partitioning (greater number of calories utilized by muscle tissue and less stored in fat cells), increased blood flow, as well as playing a role supporting the production of luteinizing hormone (LH) and growth hormone (GH) secretion.

Take with Arginine Alpha-Ketoglutarate and Citrulline Malate for sustained and intense NO performance. Stacking these key amino acids together has proven to significantly enhance athletic performance.

AGMATINE

Ultra Micronized

Max Bioavailability

NITRIC OXIDE PERFORMANCE

- ENHANCE BLOOD FLOW TO MUSCLES
- REDUCE RECOVERY TIME
- INCREASE NITRIC OXIDE (NO)

HPLC Verified

PHARMACEUTICAL GRADE

90 Capsules

**MUSCLE
PERFORMANCE**

**ULTRA PURE
INGREDIENTS**

Supplement Facts

Serving Size: 2 Capsules
Servings per container: 45

Amount
Per Serving %DV

Agmatine Sulfate **1000 mg** **

** Daily Value not established.

Other Ingredients: Gelatin (Capsules).

Recommended Use: Take 1 serving (2 capsules) with water or your favorite beverage twice daily on an empty stomach. Take first dose in the morning and second dose one hour prior to workout. If workout is in the morning, take second dose a half hour prior to lunch. To maximize results, drink at least 64 ounces of water daily while taking this product.

- **IMPROVE NITRIC OXIDE (NO) LEVELS**
- **BOOST NUTRIENT TRANSPORT TO MUSCLE**
- **ENHANCE KIDNEY FUNCTION**
- **ASSIST IN STRESS REDUCTION**
