INCREASE & BLOOD FLOW

₹ SUPPORTS NITRIC OXIDE

- Arginine is a conditionally essential amino acid and a precursor to Nitric Oxide (NO). This means Arginine is essential in the bodily process of creating nitric oxide.
- Nitric oxide is responsible for dilating blood vessels. which increases overall blood flow, and improves cardiovascular health. For athletes, the body uses Arginine faster than it can produce, leading to losses in performance.

WITHOUT NITRIC OXIDE

CONSTRICTED BLDGG

WITH NITRIC OXIDE

ENNANCED BLOOD

For Best Results: Combine with NutraKey's L-Citrulline Malate to enhance nitric oxide production.

Supplement Facts

Serving Size: 2 Capsules Servings per container; 50

Amount Per Serving

Arginine AKG (alpha-ketoglutarate)

"Daily Value not established
