

MET-Rx® Super Joint Guard

Heavy lifting puts extreme stress on your muscles and joints, which is why it's essential to provide your body with the firepower it needs to come back bigger and stronger.

Specifically designed for bodybuilders and athletes, MET-Rx® Super Joint Guard combines time-tested nutrients to help build joint cartilage, support mobility and soothe overworked joints.* Each serving provides important components found within the joint structure - such as Glucosamine, Chondroitin and Hyaluronic Acid, along with Omega 3 & 6 essential fatty acids found within joint cell membranes.*

If you take a protein supplement every day to build your muscles, make sure to stack it with Super Joint Guard to help build your cartilage - so you can unleash the pain on the weights, not on your joints.*
