

NOW® Mangoni™ offers a superior free-radical quenching profile in one convenient, great tasting supplement. Each delicious serving contributes an abundance of naturally occurring polyphenols (including catechins), polysaccharides, vitamins, amino acids, essential trace minerals and other beneficial compounds. Mangoni™'s ORAC (Oxygen Radical Absorbance Capacity) value is in excess of 60,000 per bottle and its polyphenol content is almost 3 times that of similar products. Each 1 fl. oz. serving yields an ORAC value of 2,000 or above.

SUGGESTED USAGE: As a dietary supplement, take 2 tablespoons (1 fl. oz.) 1 to 3 times daily, preferably before or in between meals. **Shake vigorously prior to use.** For ideal results, keep NOW® Mangoni™ refrigerated when not in use. Serve nicely chilled.

NOW® Mangoni™ delivers the natural nutrients found in Genuine Whole Foods.

A Dietary Supplement Vegetarian/Vegan

NOW® Mangoni™ is the one-of-a-kind "SuperFruit" cocktail that unites 6 of the most anti-free-radical, ORAC fruits on the planet. This completely unique formula boasts almost 3 times the polyphenol levels of other mangosteen products we tested and has an ORAC value of over 60,000 per bottle at time of manufacture. Working together within the body, this unique selection of ORAC fruit extracts offers an unparalleled support in helping the body defend itself from oxidative stress.*

Mangosteen: The Mangosteen's rind and white inner fruit have some of the most powerful free-radical neutralizing compounds. Among them are Xanthones - highly bioactive polyphenols that have been shown to possess remarkable free-radical quenching properties.*

Acai: Acai berries have anthocyanins, a powerful class of flavonoids with well-established free radical fighting abilities.*

Pomegranate: In ancient civilizations, it was called the "Fruit of Immortality." Today, it is recognized as one of the most effective free-radical scavenging fruit. Pomegranate has been shown in numerous studies to support healthy cardiovascular and optimal cellular function.*

Noni: With a nutrient profile that includes anthraquinones, organic acids, polysaccharides, vitamins and minerals, the fruit from *Morinda citrifolia* has been consumed throughout the Pacific Islands to promote good health.*

Goji Berry: For nearly 2,000 years, this fire-red berry has been a staple in traditional Chinese, Vietnamese, Korean and Japanese medicine. Goji's diverse nutrient profile includes free-radical quenchers and flavonoids (quercetin, rutin), linoleic acid, polysaccharides, amino acids (taurine and proline), vitamins A, B and C, and carotenoids including, Zeaxanthin.*

VitaBerry®: VitaBerry® is bursting with free radical quenchers such as anthocyanins, chlorogenic acid, ellagic acid, quinic acid, vitamins and minerals. When combined, these ORAC fruits work together to lend support against oxidation and free radical attack.*
