Mangosteen (*Garcinia mangostana*), known as the "Queen of Fruits", has been treasured for thousands of years in Southeast Asia. It has been part of a traditional diet and known for its health promoting properties. More recently, scientific inquiry has revealed the extraordinary properties of Mangosteen due to its characteristic combination of potent free radical quenchers called Xanthones.

Anti-Free Radical

Mangosteen has a number of Xanthones and Proanthocyanidins. These powerful compounds help to neutralize and eliminate free radicals, and thus support healthy cellular function. NOW® Mangosteen SuperFruit Juice also contributes Goji Juice, and concentrates of Pomegranate, Blueberry, Cranberry, and Black Cherry which boost the ORAC (Oxygen Radical Absorbance Capacity) value to over 19,000 per bottle.

Cardiovascular Support

Some scientific evidence suggests that the compounds in Mangosteen may support cardiovascular health, as well as a healthy response to biological stress.

- Highly Biologically Active Free Radical Quenchers and Phytonutrients*
