REV. 001

UP4
health.

Our formulas are based on the researched and proven strains that promote the healthy bacteria in your body. With probiotics and your body in balance, the results are a happier inside.

UP4
trust.

We stand on our legacy of quality. We're dedicated to being a leader in the probiotic and guarantee you will always get what is promised on our label. It's what you'd expect from a company that's all in for probiotics.

UP4
leading.

We've been making probiotics in the USA since 1979. And it's all we do, from creating the formulas and manufacturing to getting our products to you. For us, it's a science, an art and definitely our passion.

UP4
science.

Not all probiotic strains are created equal. We start with exceptionally resilient, scientifically validated strains like *Lactobacillus acidophilus* DDS®-1 as a base for all of our formulas. We add additional live cultures that can naturally withstand stomach acid and bile without the need for chemical coatings.
