

SUPPORTS MUSCLE GAIN[†]

PROMOTES WORKOUT RECOVERY[†]

AIDS IN BODY RECOMPOSITION[†]

Whey protein isolate is the purest form of whey available. Unlike whey concentrate, whey isolate has had most of the fat and carbs from its milk source filtered out, leaving you with straight protein that helps you build muscle, recover from workouts, and change your body composition.[†] **Onnit Whey Protein** is derived from grass-fed cows that are treated humanely, and not administered steroids or hormones.

Suggested Use: Mix one scoop with at least 8 ounces of water or your choice of beverage.

Consult a medical doctor before taking this or any other nutritional supplement if you are pregnant, nursing, have or suspect a medical condition, or are taking any medications. Store in a cool, dry place. Do not use if freshness seal is missing or broken.

KEEP OUT OF REACH OF CHILDREN
