

MET-Rx® Super Reds Power

Many athletes focus their nutritional programs on getting plenty of protein to support muscle, but may lose sight of the importance of nutrient-dense fruits and natural ingredients for overall health and recovery.* Super Reds Power is designed with whole food concentrates, red superfoods, herbal extracts and more to promote well-being while fighting exercise-induced free radicals - so you can keep working hard in and out of the gym.*

Intense training can take its toll on the body, spiking free radical levels that lead to cellular damage. Super Reds Power is tested to provide an Oxygen Radical Absorbance Capacity (ORAC) value of over 1000 units per serving. The ORAC value determines how well a food or supplement is able to neutralize harmful free radicals. Three intense blends (Super Fruit Blend, Super Antioxidant Blend and Super Red Veggies Blend) provide several exotic fruits, herbs and other nutrients not typically found in the US diet - all of which contribute to the overall antioxidant capacity of Super Reds Power. We even fortified Super Reds Power with a specialized enzyme blend to help you absorb the beneficial nutrients in each serving.

If you're as serious about your health as you are about your physique, then fortify your body with the protection of Super Reds Power. Designed for athletes, bodybuilders and all active individuals who want to look as good on the inside as they do on the outside.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Directions: For adults, add two (2) heaping teaspoons to 8 ounces of water or juice and use after your workout or anytime. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing or taking any medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

KEEP OUT OF REACH OF CHILDREN. STORE IN A DRY PLACE AND AVOID EXCESSIVE HEAT. TAMPER RESISTANT: DO NOT USE IF SEAL UNDER CAP IS BROKEN OR MISSING.
