

THE PROBIOGEN® ADVANTAGE

SURVIVES 100X BETTER VS. YOGURT AND OTHER LEADING BRANDS*

WITH PROBIOTICS, IT'S QUALITY OVER QUANTITY

Many leading brands with up to 200+ billion CFUs only guarantee potency at the time of manufacture. PROBIOGEN® provides live, viable CFUs that live and thrive in the gut, colonizing to provide true benefits when you need them most. Feel the PROBIOGEN® difference!†

SMART SPORE TECHNOLOGY™

Spores are nature's best probiotics. Unlike other popular strains, spore-formers make it past the harsh gastric system to colonize in the gut for better digestive and overall health.†

WHY PROBIOTICS?

Poor diet, pollutants and antibiotics can all wreak havoc in our gut. Probiotics provide "friendly" bacteria that regulate your inner ecosystem to keep you feeling your best.†

Probiotics are naturally found in the body and in the environment. Spore probiotics are among the most effective strains that nature has to offer.

NO Refrigeration Needed†

‡ Aren't High Quality Probiotics Refrigerated? If a probiotic needs to be refrigerated, how will it survive a much warmer and more intense environment like your gastric system? Likely – it won't.
