

GR-1®/RC-14® and VAGINAL FLORA (also called microbiota)

In one of the randomized clinical trials, 75% of women in the GR-1®/RC-14® probiotic group experienced significant improvement in vaginal flora composition, while only 34% of women in the placebo (non-probiotic) group experienced similar improvement.*

Martinez, et al. *Can J Microbiol* 2009;55:133-138

Box contains smaller, Activ-Vial™ moisture-controlled desiccant bottle for better stability of probiotic bacteria.

USAGE: For maintenance, take 1 capsule orally per day, preferably with a meal and a glass of water, and increase to 2 capsules per day as needed or take as directed by your qualified healthcare professional. If your healthcare professional recommends taking this product in conjunction with antibiotics, take at least 1-2 hours after taking the medication.

NOTE: Consult a healthcare professional before using this product if you are trying to conceive, pregnant, or lactating, under the age of 18, or have a medical condition; if adverse reactions occur, discontinue use.

Fem-Dophilus® contains two patented and clinically documented probiotic strains, *Lactocaseibacillus rhamnosus* GR-1®† and *Limosilactobacillus reuteri* RC-14®‡, discovered and developed by Dr. Gregor Reid and Dr. Andrew Bruce at Urex Biotech. Over 25 years of research supports the oral use of GR-1® and RC-14® to colonize and promote healthy vaginal and urinary tract health.* A special manufacturing process protects the probiotic strains in **Fem-Dophilus®** from stomach acid and enhances probiotic bacterial survival to the lower intestine.*

‡Updates based on official taxonomy reclassification.
