

PRODUCT BENEFITS: It is well established that strenuous exercise may lead to increased imbalance between reactive oxygen species (ROS) and antioxidant defenses in the body.* Reduced Glutathione is naturally produced within cells, where it acts as an antioxidant to help maintain oxidant homeostasis in muscles.*

Directions: For adults, take one (1) capsule two times daily, preferably with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
