

Pectin, a soluble dietary fiber naturally present in citrus fruit, cannot be absorbed by the human digestive tract. However, pectin can be modified to shorten the molecular chain. This process creates smaller polysaccharide fragments that are easily absorbed and utilized in the body. **MODIFIED CITRUS PECTIN** is made up of very short chains of molecules of the same molecular weight used in recent scientific studies. The constituents of **MODIFIED CITRUS PECTIN** that are believed to be responsible for its beneficial properties are the galactosyl fractions. Their toxin-binding properties in the bloodstream may help promote good health.[†]

SUGGESTED USE: Start with one (1) teaspoon (5 grams) daily. Gradually increase to 4 to 6 heaping teaspoons daily, or as recommended by your healthcare professional. For daily maintenance, 1 to 2 teaspoons can be used. Mix in a blender with 8 ounces of water, juice, or other liquid and drink immediately. The powder's neutral taste mixes well with natural flavors in foods, beverages, and soups.

CAUTION: Do not exceed suggested use. Take this product with large amounts of fluids. If you do not drink enough liquid, the product may cause constipation. Discontinue use if intestinal discomfort or constipation occurs. If you are pregnant or breastfeeding, on medication, or have diabetes or an intestinal disorder, consult your healthcare professional before using this product.

Suitable for vegetarians and **HYPOALLERGENIC:** Contains no yeast, dairy, eggs, gluten, corn, soy or wheat. Contains no preservatives, artificial color, flavor or fragrance.

The natural color of the powder may have slight variations.

Modified Citrus Pectin Powder

Promotes Good Health[†]

Net Wt. 200 Grams (7.05oz)
Dietary Supplement

Nutrition Facts

Serving size: 1 teaspoon (5g)

Servings per container: 40

	Amount per serving:	% Daily Value:
