

Precision Engineered has pioneered the manufacture of premium sports nutrition supplements. Our commitment to quality is the highest in our industry. Every product undergoes rigorous analysis for purity, potency, safety and freshness. **We guarantee it.**

No Artificial Color, No Preservatives, No Gluten, No Wheat, No Yeast, No Fish.

Ultra Premium Whey has taken ordinary protein powders to a new dimension by combining unbelievable taste with enhanced nutrition to support your healthy diet and lifestyle.

#### WHAT SEPARATES ULTRA PREMIUM WHEY FROM THE COMPETITION

Ultra Premium Whey is actually much more than just a protein supplement. Each serving provides a good source of fiber derived from all natural sources to aid digestion and to help balance energy levels. Fiber helps to lower the glycemic index of meals, to help maintain blood sugar levels already within a normal range. Unlike ordinary protein powders, you can use Precision Engineered®'s Ultra Premium Whey in place of a small meal or any time you need balanced, high-quality nutrition to support a lean body.

• Ultra Premium Whey is enhanced with pure L-Glutamine - much more than you'll find in regular whey protein. Glutamine is the most abundant amino acid in the blood and muscle, and is involved in more metabolic processes than any other amino acid - making it an invaluable part of your healthy lifestyle.

• The GPC Protein Blend contains only gold standard Whey Protein sources including Cross-Flow Microfiltration Whey Protein Isolate and Cross-Flow Ultrafiltration Whey Protein Concentrate, which are natural sources of Glycomacropeptides. Each Whey Protein source is instantized for easy mixing and complete dispersion when added to liquid - no protein clumps!

• Each serving contains better than an 11/1 ratio of protein to sugar, with 2 grams total sugar - no junk calories to interfere with your goals of achieving a lean, healthy body.

• Specialized fats, in the form of Medium Chain Triglycerides (MCTs), are utilized for further nutritional support. MCTs are absorbed faster than ordinary fats to supply a quick burst of energy whenever you need it.

• Packed with naturally-occurring Branched Chain Amino Acids, which are important for the maintenance of lean tissue.

• Unlike some other incomplete protein sources, the GPC Protein Blend contains all of the essential amino acids required for a healthy lifestyle. Relying on inferior proteins which don't supply all essential amino acids can hinder your dietary goals.

**WARNING:** If you are pregnant, nursing or taking any medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store in a cool, dry place. Do not use if seal under cap is broken or missing.

Contents are sold by weight. Some settling may occur.

**Ingredients:** GPC Protein Blend (Cross-Flow Ultrafiltration Whey Protein Concentrate, Cross-Flow Microfiltration Whey Protein Isolate), Medium Chain Triglycerides, L-Glutamine, Cocoa (processed with alkali), Rice Bran, Oat Fiber, Inulin, Natural and Artificial Flavors, Cellulose Powder, Soy Lecithin, Cellulose Gum, Xanthan Gum, Sucralose.

Contains milk and soy ingredients.

#### Typical Amino Acid Profile Per 47 g Serving:

L-Alanine	1,027 mg
L-Arginine	676 mg
L-Aspartic Acid	2,611 mg
L-Cystine	485 mg
Glutamic Acid	3,285 mg
L-Glutamine	3,500 mg
L-Glycine	425 mg
L-Histidine	510 mg
L-Isoleucine	1,365 mg
L-Leucine	2,470 mg
L-Lysine	2,092 mg
L-Methionine	500 mg
L-Phenylalanine	757 mg
L-Proline	1,338 mg
L-Serine	1,328 mg
L-Threonine	1,797 mg
L-Tryptophan**	383 mg
L-Tyrosine	694 mg
L-Valine	1,297 mg

\*\*L-Tryptophan is naturally occurring, not added.

†Essential Amino Acids

#### Typical Amino Acid Profile Per 24 g Serving:

L-Alanine	513 mg
L-Arginine	338 mg
L-Aspartic Acid	1,305 mg
L-Cystine	242 mg
Glutamic Acid	1,642 mg
L-Glutamine	1,750 mg
L-Glycine	212 mg
L-Histidine	255 mg
L-Isoleucine	682 mg
L-Leucine	1,235 mg
L-Lysine	1,046 mg
L-Methionine	250 mg
L-Phenylalanine	378 mg
L-Proline	669 mg
L-Serine	664 mg
L-Threonine	898 mg
L-Tryptophan**	191 mg
L-Tyrosine	347 mg
L-Valine	648 mg

\*\*L-Tryptophan is naturally occurring, not added.
