

Suggested Usage: Take 1 capsule daily, preferably on an empty stomach.

Glutathione is a small peptide molecule composed of three amino acids: cysteine, glutamic acid, and glycine. It is produced by every cell of the body, with especially high levels in the liver.* Glutathione is critical for healthy immune system function and is necessary for proper detoxification processes.* It also plays a critical role in maintaining cellular health by directly neutralizing free radicals, as well as by maintaining the activity of vitamins C and E.* Milk thistle extract and alpha lipoic acid are included as complementary ingredients.
