

PRODUCT BENEFITS: PhysioLogics' Coenzyme Q-10 Q-Sorb 75 mg softgels provide an essential component of the mitochondrial electron transport chain, vital for the production of adenosine triphosphate (ATP) required for virtually all cellular processes.* By supporting the normal physiologic function of the heart, Co Q-10 promotes healthy circulation through myocardial tissue.* Co Q-10 is a lipophilic antioxidant which neutralizes the formation of free radicals.*

Directions: For adults, take one (1) softgel twice daily, preferably with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
