

SUGGESTED USAGE: Take 1 capsule daily on an empty stomach with 8 oz. of water. Continuous use of this product for more than 30 days is not recommended except under the supervision of a physician.

HOW IT WORKS: Serrapeptase (serratiopeptidase) is a protein-digesting enzyme isolated from the friendly bacterium *Serratia marcescens*.* Studies indicate that serrapeptase is absorbed intact from the digestive tract and that it acts systemically to support healthy immune system functions and promote the body's normal healing processes.* Some evidence suggests that serrapeptase may support respiratory health by helping to maintain normal mucus secretions.*

CAUTIONS/INTERACTIONS: Not for long-term use. Not recommended for pregnant/nursing women or young children. If you are currently taking any anti-coagulant (blood-thinning) medications, please consult your healthcare practitioner prior to use.

Natural color variation may occur in this product.
