

HypOxygen™ was designed to be utilized with hypoxic (low oxygen) training methods and provides specific nutrients needed to support the normal production of red blood cells.* High altitude training has been shown to help enhance oxygen uptake and utilization capacity and increase the efficiency of cellular energy production.* HypOxygen™ supports oxygen delivery to muscle tissue and helps accelerate the removal of metabolic waste byproducts such as lactic acid.* These oxygen delivery advantages may support athletic performance and recovery.*

Suggested Use: Depending upon body weight and level of exercise, take 1-2 capsules twice daily on hypoxic training days, and 1-2 capsules once daily on off days.

WARNING: Do not use if pregnant, nursing, or under the age of 18. Consult your doctor before using this or any dietary supplement, especially if you have or suspect you may have any medical condition. Immediately discontinue use and contact your doctor if any adverse reactions occur. **KEEP OUT OF REACH OF CHILDREN.** Store in a cool, dry place below 30°C (86°F). To report any serious adverse events, please call 800-697-2086 or email info@snac.com.
