Dr. Paul Krawitz, M.D., F.A.A.O., is passionate about eye health. With over 25 years of experience, he is one of the most professionally recognized eye surgeons in the New York area. As a practicing ophthalmic surgeon, lecturer and scholar, Dr. Krawitz is an expert in eye disease and age-related vision issues.

Fascinated by the role nutrients play in overall vision health, Dr. Krawitz began to pore over peer-reviewed research and top medical journals to be able to counsel his patients about supplements they could take to support healthy vision for a lifetime.

Unimpressed with most commercial supplements, Dr. Krawitz was driven to develop his own formulas, backed by science and derived from the highest quality ingredients and natural sources to ensure their potency and bioavailability. The choice of doctors, hospitals and patients seeking quality nutraceuticals for ocular health for over a decade, Dr. Krawitz' formulas are now available to consumers.

As we age, we begin to notice our vision isn't quite as sharp or reactive to changes in light. Vision Performance is designed with the right nutrients to help maintain sharp vision and healthy eyes for a lifetime.*

CAROTENOIDS FOR CONTRAST*

Lutein, Zeaxanthin and Astaxanthin are natural compounds that give flowers and plants their brilliant colors. These are absorbed by the macular area of the eye and help absorb blue light, thereby improving contrast and sharpness.*

BLACK CURRANT FOR DARK ADAPTATION*

Cyanidin-3-Glucosides found naturally in black currants help the eye recover when transitioning from light to dark situations, such as when we enter a tunnel while driving.*

GINKGO BILOBA FOR MICROCIRCULATION*

Flavonoids promote healthy circulation to the eye.*

TURMERIC FOR INFLAMMATORY RESPONSE*

Curcumin in turmeric is a powerful anti-inflammatory for ocular protection.*

ANTIOXIDANTS FOR OVERALL PROTECTION*

Grapeseed Extract, N-Acetyl Cysteine, Quercetin, Rutin, and Taurine are added to help fight free radical damage.*
