

PRODUCT BENEFITS: Phosphatidylserine (PS) is a natural substance found in brain cell membranes.* Phosphatidylserine levels in the brain can decline with age, so it is important to supplement with Neuro-PS® every day to aid brain function and support a healthy mind.* Very limited and preliminary scientific research suggests that PS may reduce the risk of cognitive dysfunction in the elderly. The FDA concludes that there is very little scientific evidence supporting this claim.

Directions: For adults, take one (1) softgel three times daily, preferably with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
