

**PRODUCTS BENEFITS:** Homocysteine Formula is a unique combination of select high potency B-vitamins to help promote heart health by assisting in homocysteine metabolism in the body.\* Vitamin B-6, B-12 and Folic acid are a part of the single carbon cycle which results in the formation of the amino acid methionine. This reaction helps to maintain homocysteine levels already within the normal range.\* Healthy levels of homocysteine are important for heart and circulatory health.\*

**Directions:** For adults, take two (2) capsules daily, preferably with a meal, or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
