

SCIENTIFICALLY SUPERIOR, STRENGTH-ENHANCING MASS GAINER

Since the formula was first released, Mass-Tech® Elite has proven so effective, it's become the stuff of legend among hardgainers for its ability to pack on muscle mass, size and strength. MuscleTech® researchers engineered this advanced muscle mass gainer for those who have struggled with adding size, are in their

bulking phase or want to break through their strength plateaus. See the results from all your hard work in the gym — Mass-Tech® Elite delivers the highest biological value protein, along with the clean calories, carbs and creatine you need to bulk up, pack on and jack up your strength.▲

MORE PROTEIN PER SERVING THAN COMPETITORS♦

This formula features an 80g multi-phase protein system when mixed with 2 cups of skim milk — which supplies fast- and slow-digesting proteins and provides critical amino acids to the body at varying speeds.

ENHANCED WITH CLINICALLY PROVEN CREATINE

Each serving delivers 1,000 nutrient-dense calories (when mixed with 2 cups of skim milk) derived from high-quality protein and quickly digested carbohydrates. What's more, each calorie-dense serving is enhanced with a huge 10g dose of the most studied form of creatine for even better gains in muscle and strength.▲

EXPLICITLY CLEAN PROTEIN

It's clean and simple. Delivers more protein,♦ better calories and bigger results than other mass gainers, with the macros you need to pack on quality mass.▲ After all, it's what's inside that counts. Try it and you'll see the difference.

♦ 26% more protein than the next leading competitor, which has 50g of protein when mixed with water. See Supplement Facts for cholesterol content.

20% BETTER AMINO ACID ABSORPTION

ProHydrolase® is designed to maximize the performance benefits of protein, assisting the body in absorbing essential amino acids for building muscle and improving muscle recovery. One clinical study showed subjects who consumed whey protein with ProHydrolase® experienced an average of 20% better amino acid absorption than those taking whey protein alone.▲

MULTI-PHASE PROTEIN SYSTEM

The multi-phase protein system supplies high biological value protein delivering all the key amino acids you need to build extreme muscle size, including BCAAs and EAAs. When your muscles are consistently supplied with the premium fuel they demand, you'll experience breakthroughs in strength that once seemed unreachable.▲

Other Ingredients: Multi-Phase Carb Complex (Maltodextrin, ModCarb® [Oat Bran, Quinoa, Buckwheat, Millet], Isomaltulose), **Multi-Phase Protein System** (Whey Protein Concentrate, Calcium Caseinate, Egg Albumin, Whey Protein Isolate 97%, Hydrolyzed Whey Protein Isolate, Whey Protein Isolate), Natural Flavors, Calcium Carbonate, Soy and/or Sunflower Lecithin, Gum Blend (Cellulose Gum, Xanthan Gum, Carrageenan), Sucralose, Acesulfame-Potassium, Medium Chain Triglycerides. **Contains milk, soy, egg and coconut ingredients. Processed in a facility that also processes peanut, tree nut, fish/crustacean/shellfish and wheat ingredients.**

Directions: Mix 1 serving (5 scoops) with 16 oz. of water or skim milk and consume twice daily, either in the morning, between meals or post-workout. For best results, use a blender. Drink 8 to 10 glasses of water daily for general good health. Read the entire label before use and follow directions provided.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).
