

PRODUCT BENEFITS: PhysioLogics® EPA/DHA softgels deliver the long-chain polyunsaturated fatty acids Eicosapentaenoic Acid (EPA) and Docosahexaenoic Acid (DHA) to support circulatory and metabolic health.* Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. See nutrition information for total fat content.

Molecularly distilled to remove Mercury, PCBs and other heavy metal contaminants.

Directions: For adults, take one (1) softgel daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing, taking any medications, planning any medical or surgical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
