"Health is important, and too many things usually get in the way of people actually living an authentically powerful product. Loyalties can be divided. I want to make it clear where mine lies. My loyalty is to those who want to thrive, and those whose life situation requires them to thrive. My loyalty is to the end user. My loyalty... is to you. And in my life now and one day, when I look back upon my life, that has and will still have value to me incomparable to any amount of money, investors, or fame. The quality, therapeutic concentration, and affordability of a nutritional product can, and does, mean the difference between lethargy and energy, sickness and health, and, quite literally, life and death. I don't want anyone to be tired, sick or dead because they could not obtain or afford the best possible product. If someone does not feel this same way, they should not be in the nutritional product business. I live and breathe this philosophy in both my personal and professional life and constantly strive to evolve HealthForce products and offer them at the best possible values. I would rather die than compromise these principles"
-James Sheridan, (Naturopath and Alternative Medicine Research Scientist)

100% TRUGANIC™ Since the USDA now owns Organic, pesticides and other poisons are allowed on and in Organic products under many circumstances! ...and pure foods like probiotics, enzymes, zeolite, charcoal, bentonite, wildcrafted herbs and many superfoods are NOT considered organic, even if grown organically and 100% verified free of pesticides, GMO, and irradiation. TruGanic™, on the other hand, is NOT for sale to anyone at any price! It is a pure, hard-core quality standard significantly beyond Organic standards, with much more rigorous criteria and actual verification via testing that Organic does not have.
