DIETARY SUPPLEMENT

Nature's Bounty Dual Spectrum Lutein combines Zeaxanthin and the scientifically researched ingredient Lutein, to support eye health and help to replenish nutrients.* Both Lutein and Zeaxanthin are carotenoids naturally found in large concentrations in healthy eyes but are not plentiful in an unbalanced diet low in fruits and vegetables. Lutein can support eye health by helping to filter harmful high-energy light waves, such as some ultraviolet rays, from the eye.* Lutein also helps to improve vision in low contrast situations, which is essential for night driving.*
