

PRODUCT BENEFITS: Borage Oil 1000 mg supplies Gamma-Linolenic Acid (GLA), which helps provide nutritional support for overall and women's health.* GLA can be synthesized from Linolenic Acid in the body by the rate-limiting enzyme delta-6 desaturase. However, biological conversion is estimated to be less than 10% and there are no significant food sources, which is why supplementation may be important.

Directions: For adults, take one (1) softgel two times daily, preferably with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

TAMPER RESISTANT: Do not use if seal under cap is broken or missing.

KEEP OUT OF REACH OF CHILDREN.

Store at room temperature and avoid excessive heat.
