

WHY OMEGA-3 2100?

We use a highly purified and concentrated blend of omega-3s and essential oils to provide our preferred ratio of EPA (eicosapentaenoic acid) to DHA (docosahexaenoic acid) to promote heart health*. Our purity and concentration provides more omega-3s per softgel than other fish oil products.

OCEANBLUE PROMISE

TRACEABILITY of our omega-3 oils back to their source.

TRANSPARENCY in our formulations and our labeling.

TRUST in our stewardship of the seas.

PURITY of our products to safeguard the health of your family.

NO DETECTABLE
MERCURY

MANUFACTURED
IN THE USA

Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease.
