Ingredients: Concentrated seawater from Utah's inland sea, USA. Approved for use as an organic food additive and processing additive.

NO KNOWN ALLERGENS. GLUTEN FREE.

Trace Minerals®

P.O. Box 429 • Roy, Utah 84067 • USA
www.traceminerals.com • (801) 731-6051

Suggested Use: This product is all natural, highly concentrated, contains no added preservatives, flavors, or sweeteners and has a very strong taste. We recommend mixing it with juice or food and dividing the serving throughout the day to mask the concentrated mineral flavor. Begin regimen by taking 10 drops for 3 consecutive days. Each day thereafter, increase serving by 10 drops up to ½ teaspoon (40 drops) once or twice daily. **Children age 1-3:** Take 1 drop for every 5 lbs of body weight. For regular or sodium restricted diets.

Re-mineralize Water: Improve the flavor of distilled, reverse osmosis or purified water. Adding 20-40 drops per gallon or to taste (2-4 drops per glass) compares to expensive mineral water. Minor crystallization may occur, but this does not affect the quality of the product.

America's #1 selling trace mineral supplement!‡

ConcenTrace® Trace Mineral Drops is an all natural concentrated complex of full spectrum, naturally-occurring ionic trace minerals from Utah's inland sea that's made by using **ConcenFlo™**, our proprietary harvesting process.

Ideally, minerals should come from eating a raw food diet. However, even eating a raw food diet isn't enough since researchers have proven that soils have been depleted of minerals. Therefore, if it's not in the soil, it's not in the food. Here's where **ConcenTrace®** comes in: Taking **ConcenTrace®** every day ensures you're getting a full spectrum of ionic trace minerals, which are the same kind of bioavailable ionic trace minerals that are found in foods!†
