Suggested Use: SHAKE VIGOROUSLY. For best results, take 1 tsp. (5 mL) daily in divided servings with your meals. Mix with juice or take straight if desired. May also be taken sublingually. **REFRIGERATE AFTER OPENING.**

Coenzyme Q10 is a vitamin-like nutrient that is naturally synthesized in the body and is found in every cell. It is a potent antioxidant that plays an important role in many functions in the body, including cell growth and maintenance, cardiovascular health, immune system support, and energy production.[†] The level of coenzyme Q10 slowly declines as the body ages, which warrants the need for supplementation to help maintain healthy levels.[†]

Liquid CoQ10 is a unique formula providing CoQ10 that has been supercharged with Ionic Trace Minerals, a concentrated complex of full spectrum ionic trace minerals.
