

USAGE: Take 3 capsules twice per day with meals, preferably dividing the number of capsules equally with each meal (for a total of 6) to facilitate maximum absorption or as directed by your qualified healthcare professional.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, or taking medications (especially warfarin/Coumadin), consult your healthcare professional before using this product.

Bone-Up® provides ossein **MicroCrystalline HydroxyApatite (MCHA)** Complex (from free-range New Zealand calves), which includes the superior combination of the inorganic calcium lattice of MCHA within an organic protein milieu. MCHA has been clinically demonstrated not to disproportionately spike calcium blood levels as do other forms of calcium such as carbonate and citrate. The MCHA is combined with vitamin D₃ and vitamin K₂ as MK-7 from natural fermentation to support the proper deposition of calcium and maintain the integrity of calcium as part of the bone matrix, thereby supporting cardiovascular and arterial health.* Potassium citrate is also added for optimal osteo support.*

HEALTH CLAIM: Adequate calcium and vitamin D as part of a healthful diet, along with physical activity, may reduce the risk of osteoporosis later in life.

For best results, use with **Jarrow Formulas® JarroSil®**, the biologically **Activated Silicon®**.

Keep out of the reach of children.
