

SUGGESTED USAGE: As a dietary supplement, take 3 softgels 1 to 2 times daily, preferably 1 hour before meals.

CLA (Conjugated Linoleic Acid) is a class of fatty acids produced by animals that is naturally found in beef and dairy products. Although CLA plays an important role in a number of cellular metabolic processes, humans are not able to produce CLA and therefore can only obtain it from the diet. Since CLA is generally more abundant in grazing animals, changes in agricultural practices have resulted in less CLA in our foods, decreasing its availability in modern diets. Therefore, using a CLA supplement is recommended to obtain desirable levels of CLA for its beneficial effects.* CLA is derived from Non-GMO Safflower Oil and delivers 800 mg CLA per softgel.

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CAUTION: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children. Do Not Eat Freshness Packet. Keep in Bottle.
