EXCLUSIVE PROFESSIONAL FORMULAS

ProbioMax® 350 DF

PROFESSIONAL USE ONLY

ProbioMax® 350 DF

DIRECTIONS: Dissolve the contents of one stick pack (350 billion CFU)^{††} into 1-2 oz of pure water and consume once daily, or take as directed by your healthcare professional.

Consult your healthcare professional prior to use. Individuals taking medication should discuss potential interactions with their healthcare professional. Do not use if stick pack is damaged.

ProbioMax® 350 DF features a diverse blend of HOWARU® and FLORAFIT® probiotic strains to support a healthy gut microbiome. Each strain is well-researched and identity-verified and has been genetically characterized and properly classified for your safety and assurance. These strains were not only selected for their health benefits and complementary actions but also for their viability and stability. *

With the 18 different strains of health-promoting bacteria provided in ProbioMax 350 DF, the impact on multiple body systems and functions—such as on immunity, digestion, metabolism, and cytokine production—is maximized because different strains have slightly different functions and are concentrated in various places along the digestive tract. Using a variety of strains also mimics a healthy diet that includes foods containing live and active bacterial cultures, such as fermented foods. *

To protect the bacteria from an opaque and moisture, each flavoring- and sweetener-free serving of ProbioMax 350 DF comes in a light, foil-lined stick pack.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORAGE: Keep closed in a cool, dry place out of reach of children.

FORMULATED TO EXCLUDE: Wheat, gluten, soy, animal and dairy products, fish, shellfish, peanuts, tree nuts, egg, artificial colors, artificial sweeteners, and artificial preservatives.
