ALOE VERA -200™-

200 MG OF 200:1 ULTRA-CONCENTRATE
PLUS BARLEY GRASS AND WHEAT GRASS

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's ALOE VERA-200 provides 200 mg of our special 200:1 ultra-concentrate of pure Aloe Vera derived from the desirable inner filet of the *Aloe Vera Barbadensis* plant. Our Aloe Vera is grown in exceptionally fertile soil and never exposed to any frost while growing or heat during the extraction process. Our Aloe Vera is so concentrated that it requires over 12 pounds of pure Aloe Vera Gel to deliver just one ounce of the special material present in this formula. Aloe Vera has a long history of use going back more than 2,000 years for the health of numerous body systems, including the skin, immune system and gastrointestinal tract. Aloe Vera continues to be an essential component in many ancient traditional remedies still in use today around the world. Used externally, the Aloe Vera plant has been relied upon traditionally for centuries to support the body's wound-healing capabilities, as well as its gentle soothing role for skin irritation, such as sunburn. It is for this reason that it is found in numerous skincare and topical products. When consumed internally, Aloe Vera's soothing properties are best observed in the stomach and gastrointestinal tract where it supports the health and integrity of gastrointestinal mucosa. Traditionally, Aloe Vera's multitude of uses have been admired for thousands of years, but today scientists can attribute its benefits to a rich array of uniquely healing substances and essential nutrients. Our **Aloe Vera-200** was specifically designed to concentrate these beneficial substances to deliver the greatest benefits as economically and conveniently as possible.
