

What is OptimalAmino®?

OptimalAmino® is a calorie-efficient protein replacement that provides a unique blend of eight Essential Amino Acids (EAAs) in an optimal ratio clinically formulated to achieve 99% utilization for body protein synthesis. Clinical research demonstrates that the EAA formula in OptimalAmino® is fully absorbed within 23 minutes and provides 2-6x greater utilization than protein from animal and plant-based protein sources with significantly less calories.

Suggested Use:

As a dietary supplement, take 10 tablets daily. As an exercise recovery aid, take 10 tablets 30 minutes before resistance training or within 30 minutes of completing endurance exercise. On hard training days or days of minimal dietary protein intake, take 10 tablets up to three times daily.

For Best Results:

Use OptimalAmino® at least 20 minutes before or 1 hour after consuming other dietary protein or fat.

Warnings: Not intended for persons under the age of 18. Do not use if pregnant or nursing. Consult a health care professional prior to consumption if you have any pre-existing medical conditions or are taking any prescription medication. Improper use of this product will not improve results and is potentially hazardous to a person's health. Use only as directed.

Store in a cool, dry place.
KEEP OUT OF REACH OF CHILDREN.

OptimalAmino®

Optimal EAA ratio clinically-formulated for 99% utilization*

EAA formula rapidly absorbed within 23 minutes*

Increases muscle protein synthesis*

Improves whole-body protein balance*
