

NOT ALL PROTEINS ARE EQUAL

Protein is essential for building muscle. However, not all protein supplements are made equally. MRI® Performance Hydro Isolate is the solution for maximum muscle-building power. This post-workout supplement is formulated with premium ingredients that work together to enhance amino acid uptake and support quicker muscle recovery.*

REPAIR AND BUILD MORE MUSCLE

Whey protein is known for being more effective at building muscle than casein or vegetable proteins. Hydro Isolate Protein is a high concentrated, partially broken-down, enhanced form of whey protein. This means more muscle protein synthesis with less sugar, cholesterol, and lactose. The hydrolyzed form allows protein to rapidly digest and absorb in the body to help repair and ultimately, build more muscle.*

DIRECTIONS: Dissolve 1 scoop of powder into 8 ounces of cold water. Consume after exercise or throughout the day to meet your dietary protein needs. Do not consume more than 3 servings per day.

WARNING: Consult your healthcare professional prior to use if you have or suspect a medical condition; or are taking prescription drugs. Recommended for adult use only. Product should not be used by pregnant or lactating women.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.

STORE IN A COOL, DRY PLACE.
KEEP OUT OF REACH OF CHILDREN.
