

USAGE: Take 1 capsule two times per day or as directed by your qualified healthcare professional.

WARNING: Pregnant or lactating women should not take 7-Keto® DHEA.

Jarrow Formulas® 7-Keto® DHEA is a naturally occurring metabolite of DHEA. It is unable to metabolize into sex hormones; however, it can, nevertheless, provide many of the same benefits of DHEA, but without its associated side effects. In the body, 7-Keto DHEA is responsible for activating enzymes responsible for fatty acid and carbohydrate metabolism.* The body's production of 7-Keto DHEA declines with age, which is directly correlated with a decline in metabolic rate. Clinical studies of 7-Keto DHEA demonstrated increases in metabolic rate and improvement in body mass index.*

Keep out of the reach of children.
