IMMUNOPEPTIDE POWDER

12% Colostrum Polypeptides

- Modulates a healthy immune system response[†]
- Promotes healthy cytokine production[†]
- Helps balance healthy immune function[†]
- Supports intestinal health[†]

LIPOSOMAL DELIVERY HELPS PROVIDE OPTIMAL ABSORPTION

Net Wt. 6 oz. [170.08g] 100% Colostrum Peptide Powder

Dietary Supplement

Colostrum BioPRPs - Immuno peptide Powder is a proprietary bovine colostrum extract with hundreds of bioactive peptides at a minimum of twelve percent (12%) level. This is 10 to 40 times more bio-active peptides than can be found in regular bovine colostrum dietary supplements. Polypeptides help activate and control the production and regulation of cytokines. These signaling polypeptides provide the instructions to the body to maintain a healthy immune homeostasis.

Bioidentical polypeptides are extracted from bovine colostrum through a proprietary process to produce colostrum PRP's.

Our proprietary LD Liposomal Delivery protects the bio-active components during transit to the small intestine for optimal absorption.
