DIETARY SUPPLEMENT

COENZYMATED™ B-2

FMN (FLAVIN MONONUCLEOTIDE)

SUBLINGUAL • 60 TABLETS

Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	%DV
Riboflavin (from 25 mg flavin mononucleotide [Coenzymated™])	18 mg	1,060%

Other ingredients: sorbitol, mannitol, natural peppermint flavor, and magnesium stearate.

THE BENEFITS OF COENZYMATED™ SUBLINGUAL VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. **COENZYMATED™ B-2** sublingual goes directly into your bloodstream in its active form, ready to go to work immediately. This avoids the loss that may occur not only during digestion, but during the liver's conversion process as well. Flavin mononucleotide (FMN), also called riboflavin phosphate, is one of the two metabolically active coenzyme forms of vitamin B-2. FMN is itself the precursor for the other B-2 coenzyme, FAD. FMN is involved in a wide array of enzymes and has many roles in energy production from our food, as well as bio-converting B-6 to its coenzyme form.*

Suggested Use: 1 tablet daily. Place tablet under the tongue and allow to dissolve slowly, altering the position of the tablet to avoid prolonged contact with the same area.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Suitable for vegetarians. Contains no yeast, dairy, egg, gluten, soy or wheat. Contains no sugar, starch, salt, preservatives, or artificial color, flavor or fragrance.
