DIETARY SUPPLEMENT

COENZYMATED™ B-6

P-5'-P (PYRIDOXAL-5'-PHOSPHATE)
SUPPORTS AMINO ACID METABOLISM*

25 MG SUBLINGUAL • 60 TABLETS

Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	%DV
Vitamin B-6	17 mg	850%
(from 25 mg pyridoxal- 5'-phosphate [Coenzymated™])		

Other ingredients: sorbitol, mannitol, natural peppermint flavor, magnesium stearate, and modified cellulose gum.

THE BENEFITS OF COENZYMATED™ SUBLINGUAL VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. This Coenzymated™ sublingual B-6 goes directly into your bloodstream in its active form, ready to go to work immediately. This avoids the loss that may occur not only during digestion, but during the liver's conversion process as well. Pyridoxal-5'-Phosphate (PLP or P-5'-P) is the main metabolically active coenzyme form of vitamin B-6. It is primarily in the liver that P-5'-P is synthesized from pyridoxine, with the help of enzymes that require B-2, zinc and magnesium for their activity. P-5'-P is associated with numerous enzymes, many of which are involved in the conversion of amino acids into the neurotransmitters dopamine, norepinephrine

and serotonin. P-5'-P is also required for the synthesis of the hemoglobin molecule.*

Suggested Use: 1 tablet daily. Place tablet under the tongue and allow to dissolve slowly, altering the position of the tablet to avoid prolonged contact with the same area.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.
