	Amount Per Serving	%DV
Vitamin B-12 (from 10 mg dibenzoyl [Coenzymated™])	8.6 mg	143,333%

Other ingredients: sorbitol, mannitol, natural raspberry flavor, modified cellulose gum, natural peach flavor, and magnesium stearate.

THE BENEFITS OF COENZYMATED™ SUBLINGUAL VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. Coenzymated™ sublingual B-12 goes directly into your bloodstream in its active form, ready to go to work immediately. Dibenzoyl is a primary coenzyme form of vitamin B-12. It is required for processing branch chain amino acids through the Krebs cycle for sustained energy production. Supplementation with dibenzoyl may support energy production during prolonged exertion.*
