

FolaPro® features the methylated form of folate called L-5-methyltetrahydrofolate as Metafolin®. Unlike folic acid, this form of folate requires no additional metabolic steps to be utilized by the body, making it a preferred choice for many individuals. Folate is an essential nutrient for many body processes, including hormone metabolism, DNA synthesis, homocysteine metabolism, and nervous system function.*

Directions: Take one tablet daily or as directed by your healthcare practitioner.

This product is non-GMO, gluten-free, and vegetarian.

Caution: Consult your healthcare practitioner if pregnant, nursing, or taking other nutritional supplements or medications. Keep out of the reach of children.

Storage: Keep tightly closed in a cool, dry place.
