

PRODUCT BENEFITS: Coenzyme Q-10 is essential for energy production at the cellular level.* In addition, Co Q-10 supports healthy cardiovascular function and antioxidant health.* Coenzyme Q-10 also helps recycle Vitamin E in the body.*

PhysioLogics® Hydrosoluble Coenzyme Q-10 is an advanced soluble form of Coenzyme Q-10. The Bio-Solv process takes Coenzyme Q-10 to its optimal level by processing it to dissolve rapidly.

Statin medications can reduce Co Q-10 levels in the body. Co Q-10 can replenish what Statin medications may deplete. Note: Co Q-10 is not intended to serve as a replacement for Statin therapy, nor should you discontinue taking any prescribed medications while supplementing with Co Q-10.

Directions: For adults, take one (1) softgel three times daily with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing, taking any medications, planning any medical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
